

BOARD STATEMENT

Sustainability is the crux of the success of any enterprise, especially enterprises with the conviction to achieve triple bottomline, namely People, Profit, Planet, for the benefit of both private enterprise and society.

At Ley Choon Group Holdings Limited, we are committed to upholding the highest standards of Economic, Social and Governance (ESG) practices within our organisation. While we are taking our first steps in the sustainability journey, we have embraced our corporate social responsibility with conviction and fervour.

We believe our sustainable growth and success is only possible with the sustainable development of the communities we operate in, be it social, business or national communities.

Driving long term sustainability is our vision. Centred on our key material issues, we will endeavour to set ourselves on the journey of achieving a good balance between financial growth and ESG performance.

We have taken the lead to implement several major key ESG initiatives in Workplace Health and Safety and Human Capital. To enhance our employee performance, we have also implemented the Performance Point System within our code of conduct for employees. Gearing our employees to meet the challenges of the digital economy will be our main thrust as we embrace technology innovation and greater employee engagement through the annual employee satisfaction survey.

Corporate social responsibility is in the DNA of our organisation. To reflect this commitment, the Group has a policy of matching our corporate donation and sponsorship to charitable organisations to our new business growth. Over the years, we have donated to support the local communities and sponsored to the sports events. These initiatives will be continued.

Moving forward, we believe that long term investment in human capital is the key to the long term sustainable success of Ley Choon Group. Therefore, we are committed to investing in order to strengthen our workplace health and safety practices as well as the staff training and development roadmap. Our three-year Human Capital roadmap is anchored upon 5 key pillars of 1) Fair Remuneration 2) Diversity and Equal Opportunities 3) Training and Development 4) Talent Performance Management 5) Employee Engagement and Excellence.

Since the adoption of sustainability reporting in financial year ended 31 March 2017 ("FY2017"), we are encouraged to witness the first fruits of our concerted ESG efforts. We are delighted to note not only 32.1% and 26.2% improvement in reduction in water and electricity consumption respectively, but also the cost savings of 28.2% and 16.2% for our water and electricity consumption respectively in the year ended 31 March 2018 ("FY2018").

Our commitment to invest in human capital is reflected in the 16.7% increase in total training hours to 11,997 hours as well as the 18.8% increase in average training hours per employee to 11.4 hours in FY2018.

Every journey begins with the first step. We are optimistic that the sustained drive to improve ESG performance will lead us on the path to sustainable growth and greater social accountability and contributions.

TOH CHOO HUAT

Executive Chairman & Chief Executive Officer

Best Employee Award Recipients with the Senior Management, Mr. Toh Chew Chai, Dy. Chief Operating Officer (fourth from left), Mr. Toh Choo Huat, Chief Executive Officer (fifth from left), Mr. Toh Chew Leong, Dy. Chief Executive Officer (sixth from left) and Mr. Toh Swee Kim, Chief Operating Officer (seventh from left)

Ley Choon Group Holdings Limited (the "Company"), and together with all its subsidiaries, collectively, (the "Group") recognises the importance of and seeks continuous improvement to our sustainability reporting. For the financial year ended 31 March 2018 ("FY2018"), the Group started our sustainability reporting journey by discussing the challenges and material issues that are important to our stakeholders, our strategy in managing these challenges and issues, and how we have performed in terms of our key performance indicators.

Scope of this Report

In FY2018, we adopted the reporting approach by applying the international reporting framework, Global Reporting Initiative ("GRI") Standards, in preparing this sustainability report.

For reference to the GRI Content Index, please refer to pages 30-34.

| Reporting Boundaries and Standards | The Report is also prepared in accordance with GRI Principles for defining report content, including: |
|------------------------------------|---|
| | • Materiality: focusing on issues that impact business growth and are of utmost importance to our stakeholders; |
| | • Stakeholder Inclusiveness: responding to stakeholder expectations and interests; |
| | • Sustainability Context: presenting performance in the wider context of sustainability; and |
| | Completeness: including all information that is of significant economic, environmental and social impact to enable stakeholders to assess the Company's performance. |
| | The Group uses a consolidated operating approach to determine organisational boundaries. Our data is an aggregation of our businesses globally. Our first sustainability report was issued for the year ended 31 March 2017 ("FY2017"). |
| Report Period and Scope | This report covers data and information from 1 April 2017 to 31 March 2018 and discusses the Group's achievements and performance towards Environmental, Social and Governance ("ESG") issues. |
| | This report has been prepared in accordance with the GRI Standards: Core Option. |
| Accessibility | The Group continues to print only limited copies of this annual cum sustainability report as part of our environmental conservation efforts. A current electronic edition of the report is available at www.leychoon.com. |

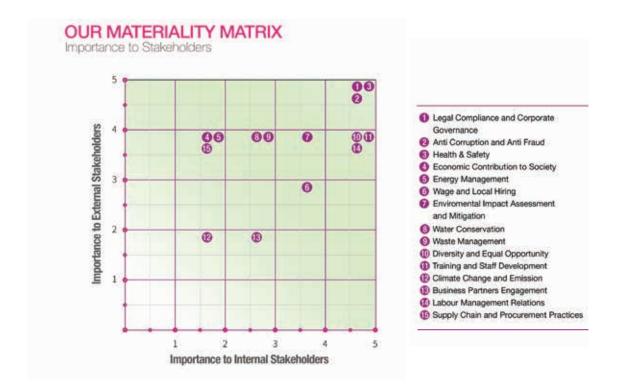

Accountability to Stakeholders

Being a responsible corporate citizen, the Group works closely with our stakeholders to understand their concerns and feedback. The stakeholder engagement provides valuable feedback and information for the drafting of our sustainability report, particularly in determining the material environmental and social issues. We will continue to engage our external stakeholders more extensively to identify areas that are material, sustainable and necessary for future development.

| Our Key Stakeholders | How We Engage Them | Key Topics |
|---------------------------------------|---|---|
| Customers | Formal meetingsInformal feedback | Project timelines, requirements and specifications Work-in-progress and status Feedback on completed projects |
| Shareholders and Financial Community | Annual General MeetingAnnouncements through SGXNetEmails | Financial results Key developments such as contract wins, corporate actions, etc. Investor relations |
| Employees | Performance appraisals Team bonding and company events Internal communication through emails and intranet Annual appreciation dinner | Performance and skills Health and safety issues and necessary precautions to note New contract wins Project timelines and status updates |
| Suppliers | Regular meetingsEmails | Feedback on their products and servicesInformation of their new products or services |
| Government and Regulatory Agencies | ConsultationsDiscussionsLegal counsel | Regulatory and industry standards and guidelines |
| Local Community | Community outreach activities (such as community event sponsorships) Charity events Sponsor technical seminars | Partner with local not-for-profit charitable organisations to identify the target beneficiaries |
| Media | Media releases | Financial results Key developments such as contract wins, corporate actions, etc. |

Mr. Toh Hong Sin (Left), Employee Long Service Award recipient with Mr. Toh Choo Huat, Chief Executive Officer

MATERIALITY MATRIX

Defining Our Materiality Issues

From the results of our stakeholders' engagement, the Group has adopted a materiality analysis to identify challenges and issues that are important to our stakeholders and which are relevant to our Group.

Our material issues are identified as those that are ranked as high and critical by both our internal and external stakeholders on the materiality matrix. We therefore focus our sustainability efforts and reporting on these issues.

We have identified and compiled 15 relevant sustainability issues for developing this report. These issues were further deliberated and narrowed down through our engagement process with stakeholders. The senior management then reviewed the list of issues and determined the material issues based on importance to our stakeholders and the sustainability impact to our businesses.

The importance of the material issues is ranked based on our meetings and interviews with our stakeholders.

Our Strategic Approach to Sustainability

With our vision and corporate values in mind, we are making an effort to integrate sustainability into the businesses of Ley Choon Group so that it is systematic and seamless. Where possible, we incorporate sustainability considerations in our decision-making processes.

Our sustainability efforts are led by our senior management who ensures that the Group's business objectives are in line with our commitments to sustainable development. Senior management is responsible for on-going communication to the Board of Directors.

Ley Choon's senior management determined focus areas where Ley Choon can have the greatest economic, environmental and social impact, as well as the areas that are most important to our stakeholders.

Ley Choon has taken efforts to seek the opinion of internal and external stakeholders either formally or informally. We aspire to understand the needs and expectations of our key stakeholders and strive to build mutual beneficial relationships

Governance Structure

ECONOMIC

ECONOMIC CONTRIBUTION TO SOCIETY

At present, the Group operates our businesses across two business segments in Singapore and another two overseas markets in China and Sri Lanka. We manage our one-stop underground utilities infrastructure construction and roadworks service in accordance with sustainability principles. We work closely with our business partners to identify and consider any sustainability opportunities and risks that may arise.

Sustainability trends such as climate change, resource scarcity and demographic changes shape the competitive environment in which companies like our Group operate by introducing long-term sustainability opportunities and recognising risks. We therefore view our business performance beyond short-term gains and financial bottom-line. Our conviction is to achieve a balanced triple bottom-line "People, Planet and Profit" both for sustainable growth for the organisation and the community it operates in.

More importantly, we strive to contribute positively to society through our economic presence by contributing to the efficient management of the public infrastructure, namely underground utilities infrastructure and roadworks, maintaining good stewardship of the resources we manage and generating good shareholders' value.

In FY2018, we have achieved S\$105.7 million revenue and created new employment opportunities within our organisation in the markets we operate in. We also seek to demonstrate our commitment to actively contribute to the communities and the charitable organisations in Singapore through a formal corporate philanthropy policy which is pegged to our annual contract wins.

For our financial performance, please refer to pages 85-150 of this report.

GOVERNANCE

LEGAL COMPLIANCE AND CORPORATE GOVERNANCE

Corporate governance and legal compliance have always been one of the top priorities for the Group. The decision-making process in the Group is strictly in line with legal and regulatory requirements and in compliance, including but not limited to, with the Code of Corporate Governance issued by Monetary Authority of Singapore and the guidelines of the Building and Construction Authority ("BCA"), Land Transport Authority ("LTA"), National Environmental Agency ("NEA") and Ministry of Manpower ("MOM").

The Company has not received any correspondences or notifications in relation to any material non-compliance of regulatory requirements in FY2018. The Audit Committee received no whistle-blowing letters during the year. There have been 9 incidents of environmental violations in response to which we have since stepped up the environmental protection programme to address the underlying issues effectively.

For further details on Corporate Governance, please refer to pages 39-75.

Ethics & Integrity

To step up our corporate governance and productivity, we have adopted a Performance Point System (PPS) within our code of conduct for employees.

Under the PPS, each worker's individual work performance is rated and ranked according to three categories, namely Performance, Safety and Attendance. The top 30% performers are rewarded by cash incentive on a quarterly basis.

At the same time, we also manage a demerit framework for all workers, which is aimed to reduce misconduct rate among employees and encourage good performance through a fair and systematic framework to govern all disciplinary action.

Our management framework centres on achieving a balance in deterrence for undesirable offences or misconduct versus the reward programme under PPS to reward good and outstanding performance among employees.

Customer Privacy & Data Protection

The nature of our businesses warrants high level of security and confidentiality of our clients' personal data as well as the business transactions they have undertaken.

We adhere strictly to the guidelines set by the Personal Data Protection Act (PDPA). We have invested to ensure our proprietary IT system meets the highest standards for IT security. Our confidential documents are disposed by waste disposal firms to ensure maximum security.

ENVIRONMENT

ENVIRONMENTAL HEALTH & SAFETY

The Group recognises the promotion of quality, environmental, safety and health of its employees and the prevention of pollution as an important part of its operations and in meeting the requirements of customers, business partners, employees and the general public.

Guided by our Group's policy that "Safety is everybody's responsibility", we are driven by the steadfast commitment to our employees for a safe working environment in which one can work and excel with full confidence.

In support of our integrated management system policy, the Group commits itself to the provision of workplace, health and safety, prevention of damages to property, the promotion of pollution-free environment and noise reduction to the general public through:

- Reducing environmental impact through "Reduce, Reuse and Recycle".
- Prevention of environmental pollution, injury, ill health and accident that potentially affect our employees, stakeholders, contractors, suppliers, and the general public.
- Continuously improving our management system, process and performance.
- Ensuring compliance to applicable legal legislation and other requirements.
- Green and Gracious practices/code approaches to protect our mother earth and be gracious and considerate to general public.

Occupational Health & Safety

To enhance our Safety Standards and to lower the Accident Rate [AFR & ASR] within the Group, a new Safety Enhancement Programme [SEP] has been established to improve and enhance our safety standards.

Currently, we have two existing programmes well in place which are daily toolbox meeting and our monthly safety training.

In FY2018, we have introduced a new worker induction programme which provides a comprehensive training for all aspects of safety in different work environments.

We held our annual Safety Day to encourage workers to display good safety practices at sites as well as to maintain good housekeeping of equipment, machinery and vehicles. Top 3 winning teams were selected by Management and prizes were given out during our employees Annual Appreciation Dinner. To heighten safety consciousness, we have also integrated a safety-related quiz during our Annual Dinner.

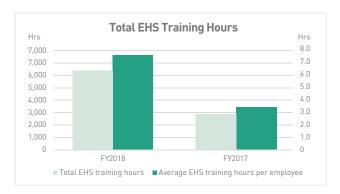

A new element in risk management training has been introduced in the form of a tie-in with SGSECURE Anti-Terrorism whereby our workers instilled the importance of protecting our worksite against terrorist sabotage.

Our senior management team demonstrated commitment through the regular Management walk down inspection as well as the new slogans for our Safety Campaign – "Safety is Everybody's Responsibility, Prevent All Injuries, Go Home Safe and Healthy, Do not let your loved ones worry".

In addition, a workplace fire safety drill was also organised to ensure that our employee are trained to respond during emergencies.

In FY2018, we have not only successfully reduced our safety and accident severity rate by 33.3%, but also maintained our average EHS training hours per employee at 7.6 hours.

| EHS Training | FY2018 | FY2017 |
|---|---------|--------|
| Total EHS training hours | 6,366.5 | 2,883 |
| Average EHS training hours per employee (Based on SG (838)) | 7.6 | 3.44 |

Water Conservation & Energy Management

Given the fact that we are in the underground utilities infrastructure business, the intensity of water and electricity consumption is correspondingly high in keeping up with our business operations. The water supply to our businesses are drawn from the national water system provided by Public Utility Board. We have been actively monitoring our water and electricity to control consumption levels so as to maintain cost efficiencies.

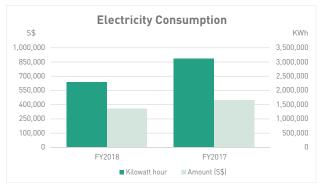

In FY2018, we have actively taken steps to reduce the water, energy and paper consumption within our organisation over the past year.

With the early adoption of sustainability reporting in FY2017, we are reaping the benefits of our concerted ESG efforts. We are delighted to note not only 32.1% and 26.2% improvement in reduction in water and electricity consumption respectively, but also the cost savings of 28.2% and 16.2% for our water and electricity consumption respectively in FY 2018.

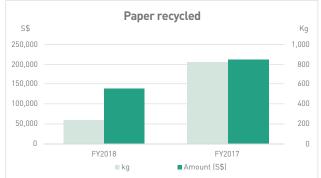

| | FY2018 | | FY2017 | |
|-------------------|---------------|--------------|---------------|--------------|
| | Unit (cm³) | Amount (S\$) | Unit (cm³) | Amount (S\$) |
| Water Consumption | 59,769 | 146,196 | 88,055 | 203,655 |

| | Kilowatt hours | Amount (S\$) | Kilowatt hours | Amount (S\$) |
|--------------------------------|----------------|--------------|----------------|--------------|
| Electricity Consumption | 2.294.250 | 359.358 | 3.107.586 | 428.937 |

| | FY2018 | FY2017 |
|------------------------------------|------------|------------|
| Weight of paper recycled | 239kg | 820kg |
| Cost savings for paper consumption | \$5,612.50 | \$8,505.00 |

Biodiversity Conservation

To kickstart our biodiversity conservation programme, we have commissioned an arborist to review the conditions of the vegetation around the circumference of first two pilot projects for our project sites. Through environmental monitoring and mitigation, we are incorporating biodiversity conservation within our worksite management process systematically.

During our first project site, we have successfully implemented the monitoring system to ensure the flora and fauna of our project site which is protected and untarnished by any of our construction activities.

2010 EV2017

The procedure of monthly observation and preservation of biodiversity around our construction sites have been incorporated in the environmental process for our worksites

Waste Management

In line with our corporate motto of "Build, Renew, Recycle", proactive mitigation of the environmental impact and protection is deeply embedded within our business model, as aptly demonstrated by the built-in recycling feature of our asphalt premix plant that allows up to 70% of recycled components to be used.

As a strong green advocate of the use of recycled aggregates and asphalt, we have been doing our best to protect the environment through various initiatives to promote green environment and are also committed to comply with all applicable environmental regulations set by the BCA, NEA as well as building and construction industry locally and internationally.

Our subsidiary, Ley Choon Constructions and Engineering Pte Ltd, is an accredited recycled aggregate supplier under the Waste Management & Recycling Association of Singapore.

We have set for ourselves the mission to (1) review and implement waste management systems and processes to minimize wastage; and (2) to protect water bodies from being affected by contaminated water and waste discharge.

Pursuing EHS Excellence

We set ourselves the mandate to attain EHS excellence through meeting the stringent requirements of BCA, Green and Gracious Builder Award and bizSAFE STAR annually.

In FY2018, we have also received the BCA Green and Gracious Builder Award and bizSAFE STAR for the following subsidiaries of the Group:

Our subsidiary, Teacly (S) Pte Ltd, has won the Contractor Safety Recognition Award (above \$30m category) on PUB Safety Day 2018.

| BCA Green & Gracious Awards | bizSAFE STAR |
|---|--|
| Ley Choon Constructions and Engineering Pte. Ltd. | Ley Choon Constructions and Engineering Pte. Ltd. |
| Teacly (S) Pte. Ltd. | Teacly (S) Pte. Ltd. |
| Chin Kuan Engineering and Contractors Pte. Ltd. | Chin Kuan Engineering and Contractors Pte. Ltd. |
| | Multiform Developments & Construction Pte. Ltd. |
| | Pan Alliance Technology International Pte. Ltd. |

Contractor Safety Recognition Award from Public Utilities Board

We are proud to achieve the good performance of 200,000 Safe Man-hours for Package 1 project for Public Utilities Board.

The Package 1 project spans the proposed 2200mm diameter pipeline from Murnane Service Reservoir (MNSR) at Jalan Kg Chantek to PIE/Rifle Range Road.

Achievement of 200,000 Safe Man-hours of Package 1 project for Public Utilities Board

Targets & Performance

We have charted for ourselves an Environmental, Health and Safety roadmap which we have embarked on since FY2018.

| Aspects | Objective | Targets | Policy | | |
|--|--|---|--|--|--|
| • Quality | | | | | |
| Meet & Exceed all customer's requirement | To benchmark customer satisfaction using. Customer Satisfaction Index | To meet the average target Score of 85% for Customer Satisfaction Index | We aim for 100% on time, on budget completion rate for all our projects. We strive to achieve 100% customer satisfaction rating by our customers. We deliver the highest quality standards in accordance to the project specifications set by our clients. | | |
| Performance of services and products | To reduce the number of rework cases per year | • To reduce and miminise the major rework case by 20% | We aim for zero defects for the performance of services and products delivered to our clients. We will reduce major reworks and related repair by 1%. | | |
| Occupational Health 8 | k Safety | | | | |
| Prevention/Reduction of Accident or Incident | To provide safe working environment | To aim for zero accident rate at workplace | We aim for zero accident rate at workplace. We provide for a safe and well designed workplace to ensure our employees are safeguarded against any foreseeable accidents. | | |
| Occupational Health | To provide a healthy environment and protection for employees at workplace | To aim for zero occupational health incident at workplace | We aim for zero occupational health incident rate at workplace. | | |
| Prevention of damages to property | To prevent damages to property | To reduce and minimise the repair cost and reduce damages to property by 20% | We aim to reduce the repair costs to less than 5% of the project cost. | | |
| Comply with Legal and Other Requirements | To comply with legal requirements | To reduce the cases of legal non-compliance by 20% | We comply with all national and international legal regulations to uphold the highest level of health and safety standards at our worksites. We target to achieve zero non-compliance with any environmental regulations. | | |

| Aspects | Objective | Targets | Policy | | |
|---------------------------|--|--|---|--|--|
| • Environmental | | | | | |
| Material (Recycling) | To protect Earth's natural resources by maximizing the usage of recycled materials in daily operation works. | To increase the usage of recycled material by 1% in Operation Works compared with previous year | We embrace green principles of using more recycled materials in our daily operations. | | |
| Energy Conservation | To protect our mother earth by reducing energy consumption and avoiding pollution | To reduce the total energy consumption by 2% per headcount in HQ building | We implement energy efficient practices, technology and equipment to reduce energy consumption within our premises. We target to reduce the pollution caused by our construction activities. | | |
| Water Conservation | To preserve our environment by reducing the use of water for our activities | To reduce the total water consumption by 2% per headcount in HQ building | We implement efficient practices, technology and equipment to reduce water consumption. | | |
| Biodiversity | To deploy the necessary resources to preserve biodiversity and ensuring the sustainability of ecosystems | To engage specialist/ experts to set up the environmental programme for protected area prior to the commencement of works | We implement environmentally- friendly practices, technology and equipment to preserve biodiversity. | | |
| Effluent & Waste | To protect water bodies from being affected by contaminated water & waste discharge To ensure all the contaminated waste are sent for proper disposal by NEA approved General Disposal Facilities | To employ Environmental Control Office/Specialist for Environment Control Measure implementation | We target to treat contaminated waste water before discharging all our projects. We implement effective waste management measures and technology to ensure we maximize the materials we use and the waste disposal/discharge is responsibly managed. | | |
| Environment Compliance | To ensure we conform to environmental laws, regulations, standards and other industry requirements | To reduce the number of case(s) for environmental related cases imposed by external authorities | We comply with all national and international legal regulations to uphold the highest level of environmental standards at our worksites. | | |

SOCIAL

OUR PEOPLE

To underscore our care and commitment towards our employees, the Group adopts a holistic Human Resource ("**HR**") strategy focused on fair remuneration and equal opportunities, training and development, employee wellness and engagement, and work-life harmony.

We are fully committed to comply with all applicable labour laws where we operate and ensure compliance through on-going monitoring. We also ensure that we comply with all mandatory legal regulations and training requirements stipulated by BCA and MOM.

Fair Employment Opportunities

The Group currently has a headcount of over 1,000 employees. We provide fair employment opportunities to all, regardless of age, gender, race or nationality. Our Group advocates a policy of harnessing diversity in human resource as evidenced by a fair distribution of employees from varied nationalities and age groups to support our key markets in Singapore, China and Sri Lanka.

We have 58 new hires globally in FY2018.

Orientation for new workers before deployment to operations

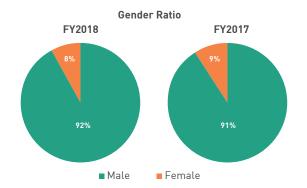

^{**} As at 31 March 2018

During FY2018, we have grown our employees' strength carefully in response to our business needs.

We advocate gender diversity and equal opportunities in our organisation. However, given the nature of our business is in the underground utilities infrastructure construction and roadworks services, it is inevitable that over 90% of our employees are male whilst the female employees are mainly engaged in the support functions at all levels.

| | FY2018 | FY2017 |
|---------------|------------|------------|
| Gender Ratio* | Proportion | Proportion |
| | (%) | (%) |
| Male | 92 | 91 |
| Female | 8 | 9 |
| Total | 100 | 100 |

* As at 31 March 2018

We ensure there are fair work practices and remuneration are ascertained based on individual work performance and not on any gender consideration. No form of discrimination is tolerated within our organisation. There is no incident of discrimination and corrective actions taken.

Training & Development

We are committed to investing in the training and further education of our employees as demonstrated by the fact that we have managed to improve our total training hours by 16.7% and average training hours per employee increased by 18.8% in FY2018.

| Training & Education | FY2018 | FY2017 |
|-------------------------------------|--------|--------|
| Total training hours | 11,997 | 10,284 |
| Average training hours per employee | 11.4 | 9.6 |

Employee Satisfaction Survey

In FY2018, we have launched our first employee satisfaction survey which was conducted among 476 employees within the Group to measure and benchmark our employee engagement and job satisfaction level within the organisation.

Through this survey, we have been able to systematically track the correlation between employee satisfaction with key factors such as staff's length of service, age group and organisational commitment.

In terms of organisational commitment, we have scored an average of over 83% satisfaction level for the employee satisfaction to the immediate reporting officer, team collaboration and career development.

Embracing Technology Innovation

The Group has also adopted Fareclock application as our first step to digitise our employee records. Fareclock is a complete time attendance system using facial recognition technology.

Through this implementation, we have enhanced the accuracy of our employee records and attendance system.

Another one of our new initiatives we have successfully introduced in FY2018 was the employee self-service system which allows our employees to access their leave records, check and apply for their leave as well as to file transportation claims on or offsite.

Annual team-building event to foster bonding across the organisation

Employee Engagement and Wellness

In appreciation of our employees' invaluable contribution to the organisation, the Group continued its annual appreciation events organised for employees of all levels to mingle and bond over social activities.

Other than our annual appreciation dinner, we also organised a badminton tournament in Singapore as part of our annual team building event. Staff across various organisational functions and levels participated in the competition in pairs whilst those who did not participate cheered their colleagues on. This has created a stronger collaborative spirit within the Group.

In addition, we organised a mega movie screening for our workers during Deepavali.

Movie screening for workers

Business Partner & Stakeholder Engagement

We actively engage our business partners and stakeholders regularly to keep them abreast of the developments of our businesses.

Please see the section on Accountability to Stakeholders on page 14 for more information.

Labour-Management Relations

It is important to have effective communication between management and employees, so that employees are more engaged with the organisation, and have a more positive attitude towards their work and loyalty to the Group. They are provided with frequent management updates and adequate notice period regarding operational changes.

We often engage our employees in the following ways:

Weekly/Monthly Meetings

Team Managers have weekly & monthly meetings with the management team to discuss about operations review and project progress.

• Quarterly Meetings

Management conducts quarterly meetings for Board of Directors to discuss on business development and finance.

• Informal Small Group

Meetings are often held by management to listen and understand our employees' concerns and grievances.

Long service award recipients with the senior management team

CORPORATE SOCIAL RESPONSIBILITY

Corporate Philanthropy

In Singapore, we have collaborated closely with our business partners to contribute to the less privileged in society through various charities.

Over the past years, we have supported the good causes of many charitable organisations. In FY2018, we have supported the following beneficiary:

| Beneficiaries | Mission | What did we do? |
|-------------------------------|---|-----------------|
| Cairnhill Community Centre | Provide grassroot and community activities to residents living in the Cairnhill constituency | Donation |

We have also participated in the Charity Golf tournament organised by Singapore Power.

Academic Symposium

The Group is actively supporting the academic and industry research for construction and roadworks engineering as well as asphalt recycling.

In FY2018, we were the Gold Sponsor of the first Symposium on Airfield Infrastructure of Airports Engineering and Future Development organised by Singapore Aviation Academy. Ley Choon presented the paper "Development of High Performance Asphalt Mix Using Performance-Related Tests".

Targets & Performance

We strive for excellence to raise our investments and standards for our human capital.

We have set a three year roadmap along 6 key pillars of

- (1) Fair Remuneration
- (2) Diversity and Equal Opportunities
- (3) Training and Development
- (4) Talent Performance Management
- (5) Employee Engagement and Excellence.
- (6) Corporate Social Responsibility.

We are systematically reviewing and setting the key performance metrics for our human resource management system.
